Professional profile

Angelo Maria Volpe

Menswear consultant

Agropoli / Cilento, Italy

Updated 7 November 2026

Summary

I support menswear brands with pattern making and production, from the first pattern to the finished garment.

Our in-house workshop specialises in classic and smart-casual men’s trousers.

For suits, jackets and outerwear, I coordinate an external production network.

For each project, we agree the processes, materials and stages I will follow.

Professional experience

Volpe Manifatture

Pattern making, garment manufacturing and operations

2019 - present

In 2019 I returned to the family business with the experience I had gained in commercial operations.

I work directly on pattern discussions, prototypes and the production stages under my responsibility.

I combine planning, client relationships and product checks in our Cilento workshop.

The workshop and its processes

VOLPE1943

Founder and pattern maker · Collection development and B2B relationships

2017 - present

I develop the menswear collection with attention to pattern, fit, construction and finishing.

I work with retailers looking for finished garments and brands seeking production support.

My commercial experience also covers e-commerce, product presentation and workflow organisation.

Brand and e-commerce

Skills

Pattern making, production and quality

- Pattern and sample development, fit and sizing.
- Plan production, supervise and check through pressing, packaging and delivery.

Brand and commercial direction

- Connect the creative idea, brand positioning and the product to be made.
- Work directly with the client on prototypes, fabrics and adjustments.

Editorial and visual direction

- Product pages, website content and materials for social media and campaigns.
- Content selection and review of pages, images and interfaces.

Collection and product

Blue blazer. Photograph from the product archive.

In my work I assess how fabric, construction and finishing work together in a garment.

A detail needs to be considered within the complete product.

Overshirt and trousers. Original VOLPE1943 photograph.

Reviewing a product also means seeing it worn.

I look at the balance of volume, proportion and fit, beyond the individual detail.

The VOLPE1943 collection

Next event

Announced participation

Source Fashion

I’m preparing VOLPE1943 for Source Fashion in London, 19–21 January 2027.

The official exhibitor profile for stand H22 includes the collection and videos from the workshop.
